

Welcome to the team!

Bahmüller Maschinenbau Präzisionswerkzeuge GmbH is a leading international supplier of corrugated box manufacturing machinery and automation systems.

The Corrugated Board Converting Machinery Division of Bahmueller Technologies, Inc. in Charlotte, a subsidiary of Wilhelm Bahmüller Maschinenbau Präzisionswerkzeuge GmbH in Plüderhausen (Germany) is pleased to welcome Edward McKillop to our North American team as a process specialist.

Due to BAHMÜLLER's exceptional reputation, Edward McKillop decided to become part of our team. With many years of expertise in the field of specialty folder gluers, he will support regular trainings, process analysis and customer demands. Additionally he will carry out machine inspections to keep our BAHMÜLLER machines up to date. Beginning in February, he will start intensive technical training sessions at our HQ in Germany and will afterwards accompany first installations in the US.

We wish Edward McKillop much of success in his new position.
