

DUSOBOX

Innovator and leader in the USA corrugated industry invested in TURBOX XL!

The picture shows **John Kelly** owner of **DUSOBOX** with **Michael Holtmann**, CEO of **BAHMÜLLER** at the FEFCO SUMMIT 2018 in Stockholm.

John Kelly and his company DUSOBOX is not only the first who invested in a **HP PageWide C500 digital Press** in USA for high-quality printing in corrugated packaging, he´s also set a milestone with the latest investment into the new **BAHMÜLLER 125'' wide TURBOX XL** for heavy and large board qualities! The Turbox XL is the first specialty folder gluer in North America equipped with the Enpro silicon tape and tear strip application system for e-commerce shippers.

DUSOBOX as independent corrugated converting facility is based in Orlando, Florida and has been family owned and operated since 1951.

The TURBOX XL, which was going into production in March 2018 was developed especially for large formats and fits perfectly into the demands of the American market.

With these investments in converting and printing DUSOBOX is advancing the art and science of packaging and converting gained by flexibility and new possibilities, which are important key factors in time to market.

Additionally to the new TURBOX XL, Michael Holtmann was proud to announce, that BAHMÜLLER will also introduce the latest **POWERPACKER III generation** in the US, which is a big success story in the End of Line (EoL) automation for specialty folder gluer.

With the new POWERPACKER III generation the BAHMÜLLER Claim: **‘Turn Power into Output’** becomes reality!

A gain in productivity up to 50% depending on the product range can be achieved compared with manual EOL operation.
